SUMMARY

Operations and Customer Service professional with 11 years of experience across technical support, quality assurance, team leadership, and management roles. Experienced in developing SOPs, monitoring KPIs, improving workflows, coaching teams, and resolving operational and technical issues. Now applying Python backend development and automation skills to build practical software solutions for real-world business problems.

EDUCATION

Western Leyte College

2010-2014

*Bachelor of Science in Business
Administration*

*Major in Human Resource Development
Management*

WORK EXPERIENCE

Warehance

2023-2026

TECHNICAL CUSTOMER SERVICE MANAGER

- Led customer service operations while overseeing technical inquiries, escalations, and support quality.
- Investigated customer-reported technical issues and coordinated with developers for complex cases and feature requests.
- Acted as a bridge between customers, support teams, and developers to help ensure issues were clearly communicated and resolved efficiently.
- Managed support tickets and team performance while maintaining timely and high-quality customer service.

Information Services 2020-2024

CUSTOMER SERVICE MANAGER / QUALITY ANALYST

- Developed and implemented business processes to improve day-to-day operations and service delivery.
- Managed customer service workflows including email operations, credit systems, refunds, and administrative processes.
- Conducted quality assurance audits to evaluate customer interactions and maintain service standards.
- Progressed from a part-time Virtual Assistant to Team Lead and ultimately CS Manager after taking on increasing operational and leadership responsibilities.

RLTM AI & IMG Medical Group 2022-2025

TECHNICAL CUSTOMER SERVICE MANAGER

- Managed day-to-day team operations, performance monitoring, reporting, coaching, and quality assurance.
- Analyzed performance results and developed action plans to address gaps and improve individual and team performance.
- Created training materials and provided coaching to support continuous performance improvement.
- Handled operational projects, ad hoc responsibilities, and AI-assisted automation tasks to improve workflows and team efficiency.

Tripaneer

2018-2020

TRAVEL GURU

- Provided customer support through phone and email while assisting customers with travel-related concerns and inquiries.
- Managed administrative tasks, customer escalations, and issue resolution while maintaining service quality.
- Coordinated customer concerns requiring additional attention to help ensure timely resolution.

PART-TIME CUSTOMER SUPPORT / VIRTUAL ASSISTANT ROLES 2018-2020

Various Clients

- Provided email and chat support, appointment setting, message dispatching, and administrative assistance across multiple client accounts.
- Supported basic Shopify operations, including content and advertisement uploads.
- Assisted with article writing and other day-to-day business support requirements.

QBE GSSC 2017-2018

PROPERTY & VEHICLE CLAIMS

- Handled property claims processing and vehicle damage assessments to support accurate and timely claim resolution.
- Reviewed claim information and assisted with resolving cases according to established processes and requirements.

TeleTech 2016-2017

CROSS-TRAINED CUSTOMER SERVICE REPRESENTATIVE

- Provided phone-based customer support and resolved service-related inquiries and concerns.
- Coordinated technician dispatches to help ensure timely resolution of customer issues.
- Worked across support responsibilities while maintaining service quality and customer satisfaction.

Teleperformance 2015-2016

CHAT SUPPORT & SUBJECT MATTER EXPERT

- Provided high-volume chat support for Groupon while resolving customer concerns efficiently and maintaining strong quality performance.
- Advanced to Subject Matter Expert within six months based on performance and operational knowledge.
- Supported teammates and undertook Team Leader-in-Training responsibilities to assist with team operations.
- Handled up to five simultaneous customer conversations while maintaining high QA scores and strong average chat-time performance.

Stream/ Convergys 2013-2015

TECHNICAL SUPPORT REPRESENTATIVE

- Provided phone and chat-based technical support for Dell and Microsoft Xbox customers.
- Troubleshoot hardware and software issues and guided customers through appropriate resolutions.
- Combined technical troubleshooting with customer communication to resolve issues efficiently and provide a positive support experience.

PROJECTS

Cig Trak V2 – Python Backend & REST API Project

Python | FastAPI | SQLite | Pydantic | REST API

- Built a layered Python application for tracking daily cigarette consumption, limits, remaining allowance, and usage status.
- Developed a REST API with FastAPI supporting complete CRUD operations through GET, POST, PUT, and DELETE endpoints.
- Integrated SQLite persistence with dedicated data-access and service layers to separate database operations, business logic, and API handling.
- Implemented Pydantic request/response models, input validation, custom exceptions, duplicate-date prevention, and HTTP error handling.
- Maintained both CLI and API interfaces while sharing centralized business logic between them.
- Designed summary calculations for totals, averages, limit compliance, and highest/lowest consumption records.

CAREER HIGHLIGHTS

- Promoted to Team Lead within 3 months for strong leadership and performance.
- Advanced from Virtual Assistant to Customer Service Manager through strong operational performance.
- Promoted to Subject Matter Expert within 6 months for consistently high QA and productivity results.

TECHNICAL SKILLS

- Programming: Python
- Backend: FastAPI, REST API Development
- Database: SQLite, SQL Fundamentals
- Data Validation: Pydantic
- API Concepts: GET, POST, PUT, DELETE, HTTP status codes, Request/Response Models
- Backend Architecture: Service Layer, Data Access Layer, Separation of Concerns
- Python Concepts: Functions, Classes, Exception Handling, Modules, Data Structures, Input Validation
- Development Tools: Git, Github, VS Code
- Additional: CLI Application Development, CRUD Operations, Business Process Automation

OPERATIONS & CUSTOMER SERVICE SKILLS

- Team Leadership
- Customer Service Operations
- KPI Monitoring
- Quality Assurance
- SOP Development
- Process Improvement
- Performance Management
- Coaching & Training
- Escalation Management
- Technical Troubleshooting
- Cross-functional Collaboration
